

Aurouze

I'd Change My Mind

I'd change my mind
If I knew that tomorrow
You'd be who you are tonight
But you're changing all the time
Like a lane on the highway and I'm the one in the way
But sometimes
You take your time if the signs are right

Talk to me
I think it might be time
I'm still here and I'm here with open eyes
And for a while you're back and wrapped around me
Won't fool myself
It flips so fast when you care too deep

I'd change my mind
If you'd roll over so your face was close to mine
And when you're far away
If I knew that I'd stay on your mind
Like your secrets I lock up
Cast a shadow on my identity
The irony is they make me feel more you than me
And the ocean feels wide tonight
But if you'd turn around just one more time
I might admit for a moment that you're mine

Until the next time I'm
Blindsided by the rumors and the no-shows
And I climb inside my shadow
With my sling shot
Until you change my mind

Talk to me
I think it might be time
I'm still here and I'm here with open eyes
And for a while you're back and wrapped around me
Won't fool myself
It flips so fast when you care too deep

I'd change my mind
Like a tune on the radio
That makes you feel like dancing
Like your first crush back at summer camp
Or if you'd go back in time to when you cared
What's on my mind
