## Socially Contagious urges

A friend of a friend had a tragedy two degrees away  
Feels doomsday  
I took it home now my partner is sad so I said  
Go ahead spend the stash on a Jag  
Take it down pass it around  
Close the circle don't leave a seat  
Go ahead own the crowd

Guess what I did yesterday  
Don't dare tell anyone  
But I'm going to tell you anyway  
And their egos suck you in must compliment  
Stroke them you just can't resist  
No matter what your sentiment  
And the fanfare feeds their vanity  
And they celebrate their profanity  
Seven on the edge of the scene

Naysayer no she can't drive like her friends do  
So she smokes again  
Mind if I join you  
Tell her more her boyfriends a loser too  
She'll play around  
She don't mind if there's three of you  
It's going around take the blame if it profits you  
It's not her fault epidemic on her avenue  
Take it down pass it around

Socially contagious urges tracing back to me  
Gotta hide my moods hide my whims no one should see

Blamed for a scandal I feel like an angel  
Why live accordingly  
Look what it's done to me  
Cared what they thought of me

Lost my autonomy  
No creativity booked itinerary Capacity Life

Tell me your story  
I'm looking for excuses  
Borrow a phrase let me know if it works for you  
Drop a name you don't know where it gets you to  
Take it down pass it around

I should have been an activist keep doing thinks that I regret  
I don't feel nothing yet  
Another night to forget  
Take it down pass it around  
Close the circle don't leave a seat  
Go ahead own the crowd

Charmed by a supremacist posing as a socialist  
Advising me invest in this  
How do I get out of this

Guess what I did yesterday  
Don't dare tell anyone  
But I'm going to tell you anyway  
And their egos suck you in  
Must compliment  
Stroke them you just can't resist  
No matter what your sentiment  
And the fanfare feeds their vanity  
And they celebrate their profanity  
Seven on the edge of the scene

Met my friend with the tragedy  
Said I'm getting blamed for infidelity  
He went home and said an old friend just let me down

Socially contagious urges tracing back to me
